Chief Architect · Enterprise Architect · Independent Consultant

BUSINESS · TECHNOLOGY · TRANSFORMATION

Stockholm / Nacka · +46 708 93 95 51 · christoffer.rasten@troi.se · linkedin.com/in/christofferrasten · troi.se

PROFILE

Experienced Chief Architect and Enterprise Architect with more than 20 years of leading architecture work, building architecture functions and creating direction in complex organisations. Has led architects, sat on the IT leadership team and worked with architecture governance, portfolio management, business development and strategic choices. Moves easily between leadership level and development teams, with a broad understanding of business, information, application and integration.

Independent consultant since 2021 through TROi Arkitektur AB, on assignments in architecture leadership, strategic advisory, transformation and solution architecture.

CORE COMPETENCIES

Architecture leadership & governance · Principles & ways of working · Enterprise Architecture · Portfolio management · CIO/CTO advisory · Digital transformation · Business & technology strategy · Operating models · Business, information & solution architecture · Capability & Domain Design · Integration & APIs

SELECTED RESULTS

- Built and led an enterprise architecture function with six architects, as part of the IT leadership team.
- Helped establish a CIO Office-like function, and developed governance, accountability and ways of working in a large IT transformation.
- Drove architectural direction and developed strategies, principles and shared ways of working across several domains and teams.
- Advised leadership teams on architecture, strategy and organisational development, and coached architects and development teams.
- Contributed to the modernisation of digital advertising, customer and order flows, and ERP and finance processes.

EXPERIENCE

Founder & Independent Consultant — TROi Arkitektur AB 2021–Present

Consultant in digital transformation, enterprise architecture, strategic advisory, business and technology architecture, and technical leadership. Connecting governance, business capabilities and solutions with concrete delivery.

Engagements via TROi:

> **IT Architect — TVM (TV4 / MTV, Nordics)** 2023–Present
>
> Cross-functional architecture work between the business, development teams and technical domains in a Nordic media landscape. Modernisation across advertising, marketing, customer service, customer/CRM, order, ERP and finance, together with integration strategy, architectural direction and support to development teams.
>
> **Senior Advisor — Raise Gruppen** 2024–2026
>
> Technical advisor to the CIO and development teams on architecture, digital strategy and technical direction.
>
> **Solution Architect — Telia / C More / Telia Play** 2022–2023
>
> Solution architect for digital customer and subscription journeys: onboarding, checkout, payments, PSP integrations, CRM and integrations with surrounding systems.
>
> **Solution Architect — TV4 / C More** 2021–2022
>
> Digital customer journeys with checkout, onboarding, subscriptions, payments and CRM integrations — including PSP integrations, PCI-related matters and migration.

AFA Försäkring

2001–2021

From developer to Chief Architect at one of Sweden's leading insurance companies.

> **Chief Architect / Head of Architecture** 2018–2021
>
> Built and led the architecture function with six architects, and was part of the IT leadership team. Drove architecture governance, strategic direction and a new operating model in which IT moved from internal supplier to strategic partner. Helped establish CIO Office-like governance with a portfolio perspective. Held line management responsibility as well as budget and result responsibility.
>
> **Domain Architect** 2013–2018
>
> Architecture and digitalisation initiatives across business, information, solution and technology.
>
> **Solution Architect** 2008–2013
>
> Solution architecture and business development focused on e-services, customer and claims flows, and streamlining of internal processes.
>
> **System Architect & Developer** 2001–2008
>
> System architecture and development focused on claims handling, information flows and the digitalisation of customer dialogue.

Operations & Support Technician — X-Source / Datametrix

2000–2001

Operations and support, primarily for the MTG group, including on-site support for Metro.

PUBLISHED WORK

> **Friction — The Silent Killer** — a published, practice-based work on organizational flow: structural friction and organisations' ability to keep creating value. Free to read at troi.se.
