

CHRISTOFFER RÅSTEN

Chief Architect · Enterprise Architect · Independent Consultant

BUSINESS · TECHNOLOGY · TRANSFORMATION

Stockholm / Nacka · +46 708 93 95 51 · christoffer.rasten@troi.se · linkedin.com/in/christofferrasten · troi.se

PROFILE

Senior architect and technical leader who connects business, technology and organisational change, and sees it through — equally at home in leadership teams and development teams, from strategy and operating models through enterprise, business, information and solution architecture. Long experience of complex end-to-end flows across team, system and organisational boundaries, mainly in insurance, media and digital services.

Independent consultant since 2021 through my own company, TROI. Available for consulting and interim engagements — from chief architect and CTO to enterprise and solution architecture.

CORE COMPETENCIES

Digital transformation · Business & technology strategy · Business development · Leadership & agile transformation · Operating models · Enterprise Architecture · Business Architecture · Information architecture & information flows · Solution Architecture · Capability & Domain Design · Architecture Enablement · Integration & APIs

SELECTED RESULTS

- Built an enterprise architecture capability and led a team of six architects — as part of the IT leadership team.
- Developed integration strategy, ways of working and guidelines that created alignment and direction across team and system boundaries.
- Brought clarity to structure and delivery in complex landscapes — from strategy to concrete execution.
- Acted as a sounding board to development teams and raised architectural maturity.
- Delivered new solutions for a digital ad inventory, new ad sales formats, sales tooling and marketing automation — supporting a Nordic media house's advertising shift from broadcast to digital.
- Led an ERP migration and the modernisation of revenue and finance flows.

EXPERIENCE

Founder & Independent Consultant — TROI Arkitektur AB

2021–Present

Independent consultant in digital transformation, business and technology strategy, enterprise, business, information and solution architecture, and technical leadership. Validation of strategy and architecture, capability and domain design, solution design and architecture enablement.

Engagements via TROI:

IT Architect — TV4 / TVM / MTV, Nordics

2023–Present

Broad work between business and technology in a complex Nordic media landscape (Sweden and Finland), with development teams in Sweden and across Europe. Customer and CRM, order management, revenue and finance/ERP flows, marketing automation, data and integrations — including modernisation, migrations, solution design, integration strategy and architecture enablement.

Senior Advisor — Raise Gruppen

2024–2026

Senior advisory to management on digital strategy and architecture, connecting business direction, organisational design and technical execution.

Solution Architect — Telia / C More / Telia Play

2022–2023

Customer and subscription journeys: onboarding, checkout, payments and PSP integrations, CRM and surrounding integrations.

Solution Architect — TV4 / C More

2021–2022

Digital customer journeys with checkout, onboarding, subscriptions, payments and CRM integrations — including PSP integrations, PCI-related matters and migration.

AFA Försäkring

2001–2021

From developer to Chief Architect at one of Sweden's leading insurance companies.

Chief Architect / Head of Architecture

2018–2021

Built and led the enterprise architecture capability and a team of six architects. Part of the IT leadership team (IT approx. 120 people) working on digital transformation, IT strategy, operating model and modernisation — with a focus on architecture, operational leadership and evolving the IT strategy in line with the company's vision and goals.

Domain Architect

2013–2018

Digitalisation initiatives and ongoing work across business, information, solution and technology.

Solution Architect

2008–2013

Solution architecture and business development focused on e-services, customer and claims flows, and streamlining of internal processes.

System Architect & Developer

2001–2008

System architecture and development focused on claims handling, information flows and the digitalisation of customer dialogue.

Operations & Support Technician — X-Source / Datametrrix

2000–2001

Operations and support, primarily for the MTG group, including on-site support for Metro.

PUBLISHED WORK

Organizational Flow — Published, practice-based work on structural friction and organisations' ability to continuously create value.

INDUSTRIES & DOMAINS

Insurance · Media, streaming & advertising · Subscription businesses

BUSINESS & TECHNOLOGY FLOWS

Customer & CRM · Sales & order · Subscription & checkout · Payments & PSP · Invoicing, revenue & ERP · Marketing Automation · Data & integrations

EDUCATION & CERTIFICATIONS

Certified Chief Architect — Dataföreningen / DF Kompetens, 2017

UX Certified — Nielsen Norman Group, 2015

Elements of AI — Linköping University, 2019

IASA — architecture training

Data & Telecommunications — Nackademin, 1999–2001

LANGUAGES & OTHER
